Personal Profile

My Name's Mohamed ,
25 Years Old.
I'm an Android dev in both
languages [Java and Kotlin] ,
and a content creator , I have
2 years experience of
working on a variety of
projects . I have a great
ambition to continue
developing my skills and
aspire to work in a
collaborative environment. I
work on all aspects of the
development lifecycle.

About Me

I have a great ambition to
continue developing my skills
and aspire to work in a
collaborative environment. I
work on all aspects of the
development lifecycle.
I have knowledge of OOP,
MVVM and MVC principles,
My work includes building
user-focused, innovative,
keep user security and
performance UI, and
developing clean code with
teamwork.

I have experience in Rest API,
Retrofit, Room Database, RX
java , databinding, online
payment, E-commerce App,
Firebase, Google Play
Services, Google Admob,
Butterknife-Library, Service,
Broadcast Receiver , Short
experience in dagger and
kotlin coroutines, and power
to use GitHub to work with a
team.

I enjoy building great Arabic
content and helping others do
the same. So that's what I'm
doing on the channel.

Education

Graduate, Bachelor of Laws
Helwan University
2017 - 2021

Experience

working customer service
at Etisalat Out Source
2018 - 2020

working customer service
at Orange Adsl Out Source
2020 -- 2021

Self-Study Android
Development

2019 - Present

Android Developer
Freelancer

2020 - Present

UI / UX Design
Adobe XD

2021 - Present

Youtube
content creator

2020 - Present

I enjoy building great Arabic
content and helping others do
the same. So that's what I'm
doing on the channel.

Languages

Arabic
Mother tongue

English
Full professional proficiency

Courses & Training

Kotlin for Java Developers by JetBrains

Coursera

Developing Android Apps with Kotlin by Google

Udacity

Advanced Android with Kotlin by Google

Udacity

Algorithms, Part I by Princeton University

Coursera

Algorithms, Part I by Princeton University

Coursera

Algorithms, Part II by Princeton University

Coursera

Technology Skills

- Java, Kotlin , C++ , Python, Java Script
- OOP, MVVM and MVC principles
- Powerful Firebase services
- Powerful Admob Services
- Google API
- Android SDK
- Room Database - SQLite
- DATA STORAGE
- Kotlin Coroutines
- Unit Testing
- Version Control – Git - GitHub
- Data Binding
- Hilt
- RXJava
- View Binding
- Live Data
- REST API and Retrofit
- Experience with third-party libraries
- Powerful UI Design on Adobe XD
- Experience of building and integrating with API (REST and Retrofit)
- Json
- command Line
- HTML - CSS

Professional Skills

- Communication.
- Problem Solving.
- Self-Study.
- Ability to develop and maintain front and back-end code to a high standard and to agreed timescales
- Ability to review other developers' solutions and code
- Ability to produce comprehensive documentation
- Research
- Attitude
- Time management
- Follow full software development life cycle
- Develop software with high standards following software engineering concepts and principles.
- Develop cross-platform mobile apps .
- Research, Learn and use new technologies, tools and solutions.
- Develop efficient and effective solutions for business requirements and problems.

My Youtube Content

- Kotlin Course - Tutorial for Beginners
- Firebase With Android Studio Kotlin
- Problem Solving and Tasks By Kotlin
- Projects With Android Studio Java And Kotlin
- Java Course - Tutorial for Beginners

Books

I gained a lot of experience from these books .

- kotlin Apprentice
- kotlin coroutines
- kotlin data structures and algorithms
- core java fundamentals
- Clean Code
- grokking algorithms
- c++ how to program
- Eloquent javascript

Talks

DSCDamieta / Developer Student clubs _Damietta :
Title /
How to make coding a Habit ?
100 Days Of Code Challenge
